FOUNDERS &

BOARD OF DIRECTORS

The Founder:
 The Late” Dr. Eng. Khalaf Haddadin
Board of Directors
 Mr. Samir Haddadin
 Eng. Salim Haddadin
 Eng. Zeid K. Haddadin

YEAR OF ESTABLISHMENT

1979

REGISTERED CAPITAL

1,500,000 JOD

With decades of experience in construction industry, we are very familiar with the challenges of constructing high-quality, cost-effective buildings with exceptional safety practices.

THE FOUNDER'S WORD

“Looking at the 41 years of this company's history, I feel an overwhelming pride at what had been accomplished by Haddadinco .I realize how far this knowledge-based enterprise has gone with its strategy of finding and nurturing skill-intensive and capable human resources.

Today, our reputation in contracting does not stop at delivering quality construction projects, but expands further to include a special ability at completing vital turnkey fast-track projects.

Our special standing as first choice partner in complex projects has endured from painstaking attention to detail and an uncompromising quality. Once we accept an assignment, we become one with the client's vision and we infuse our passion for work throughout all project phases.

Every project accomplished or underway increases Haddadinco's share in JORDAN's development, and every new investment placed in the company aims at increasing our share in the Kingdom's progress and future.

Being all this and more has been the true stimulus for our pride.”

The Late

Dr. Khalaf Hanna Haddadin,,

We are a growing company with a proven track record in delivering successful projects where all stakeholders would like to work together again. Our collaborative approach and commitment to understanding our client's key objectives has ensured our new clients become repeat clients.

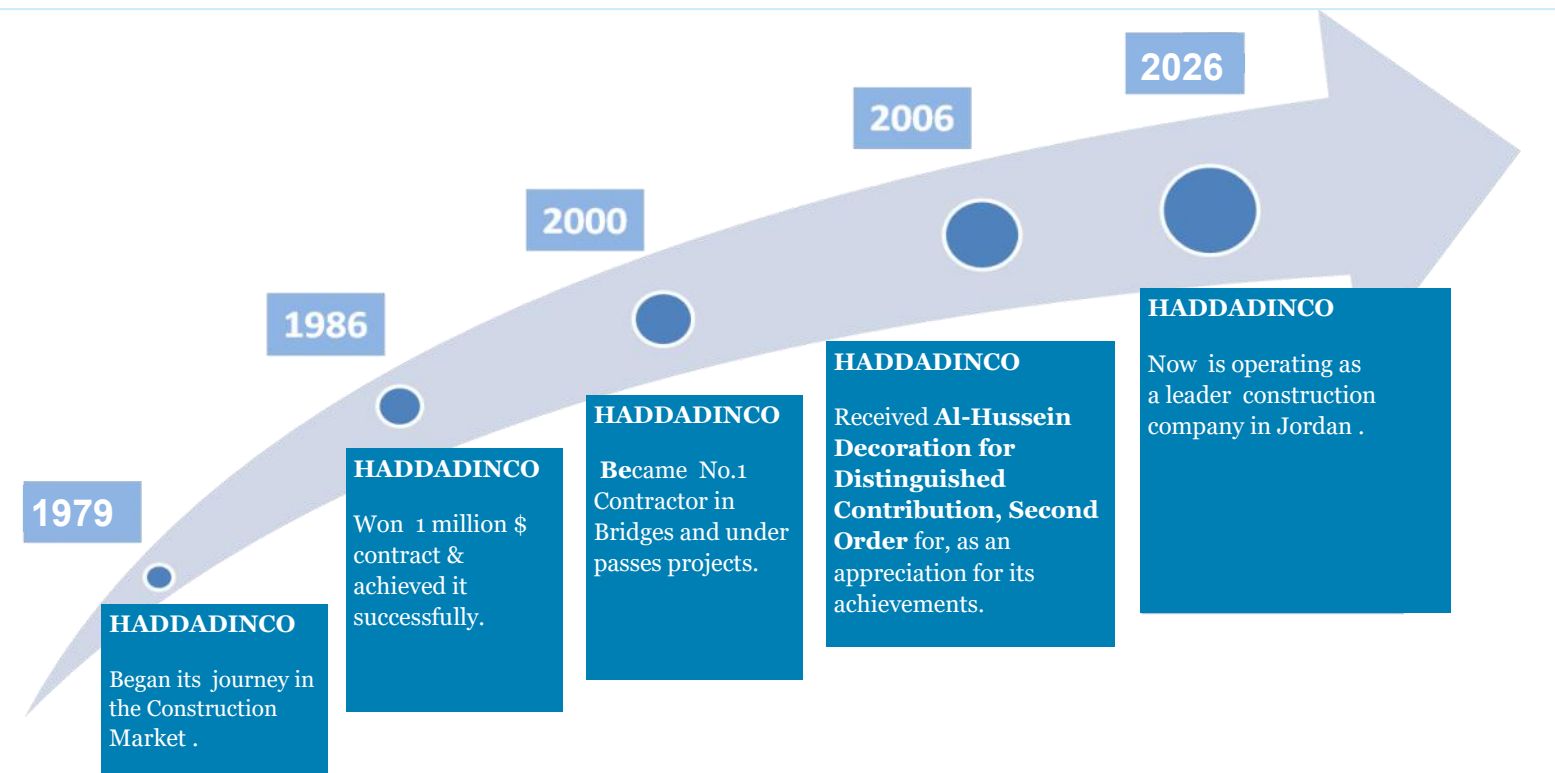

THE STORY BEHIND HADDADINCO

"We are working very hard and smart to achieve our goal"

HADDADINCO was founded in 1979 to implement the vision of its three founders Dr. Khalaf, Engineer Salim and Samir Haddadin.

Through their construction enterprise, the three brothers sought to create a progressive developer capable of servicing a national infrastructure strategy that can fully support Jordan's economic ambitions.

When **HADDADINCO** was established, its founders understood the highly competitive nature and the challenges in their markets. A progressive strategy, adapted to an environment of globalization, privatization and World Trade Agreement membership, would later help the company realize their forward position in their industry.

HADDADINCO Projects Completed in Last 15 Years

Project Type	Percentage of Projects
Hotels & Convention Centers	20%
Hospitals	27%
Roads, Bridges & Under Passes	14%
General Building Projects	39%

WHO WE ARE TODAY

We are one of the leading engineering contractors in Jordan.
We provide professional client-focused construction solutions.
We go above and beyond on every project and deliver on our promises with integrity.

WE ARE WHAT WE BUILD

"**WE ARE WHAT WE BUILD**" is a maxim that is clearly reflected in the company's portfolio, which is decorated with milestones in construction projects of different sizes and complexities.

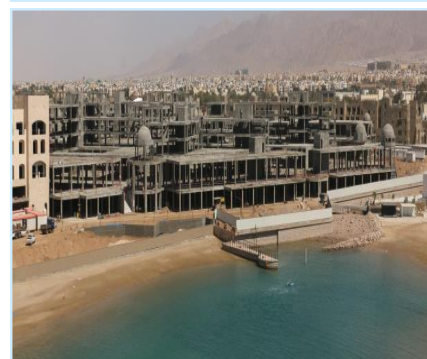

With meticulous planning and astute company investments, **HADDADINCO** grew in size and expertise, becoming one of Jordan's leading contractors.

The successful completion of several complex projects would eventually secure an impeccable reputation for the company.

HADDADINCO'S turnkey projects included residential, office, Hospitals, commercial and industrial complexes, educational establishments, facility refurbishments, hotels, bridges and underpasses serving private and public sectors.

No wonder then that **HADDADINCO** is today trusted with vital national projects requiring complex planning and execution.

Since **HADDADINCO** establishment it was always geared up towards the delivery of innovative turnkey construction solutions for its ever more demanding clients.

At **HADDADINCO**, we are dedicated to learning and applying new construction approaches and technologies to tackle virtually any size of construction project.

BUSINESS APPROACH

As a knowledge organization, **HADDADINCO** thrives on efficiency and continuously invests in state of the art construction technologies, capacity building and training. This strategy helped the company realize a substantial transfer of knowledge through its various joint ventures with renowned international organizations.

The company's dynamic proprietary Construction Management Process (**CMP**) had been invaluable to clients seeking special project competences and quality assurance.

To further realize quality gains in project execution, **HADDADINCO** has integrated an in-house consultancy division, managed by a team of highly educated construction management professionals.

We prides our selves in our ability to use technology as a tool to insure that all parties involved have the most accurate and up to date information available. Whether it is related to scheduling, submittals, RFI's, cost projections, layout drawings or estimating.

HADDADINCO has the tools necessary to provide the information required to make accurate and efficient decisions.

Our client's satisfaction is a constant measure of achievement for our team. While there is no doubt that this satisfaction is due to our commitment to our clients, it is also directly related to the values through which **HADDADINCO** manages its operation.

OUR VISION

Our vision is to inspire progress and excellence for our customers, employees, and shareholders by achieving:

QUALITY, by constructing the highest quality structures within a specific budget and timeline ensuring the benefit of our customers.

CITIZENSHIP, by rewarding our employees and associates making **HADDADINCO** an enjoyable place to work.

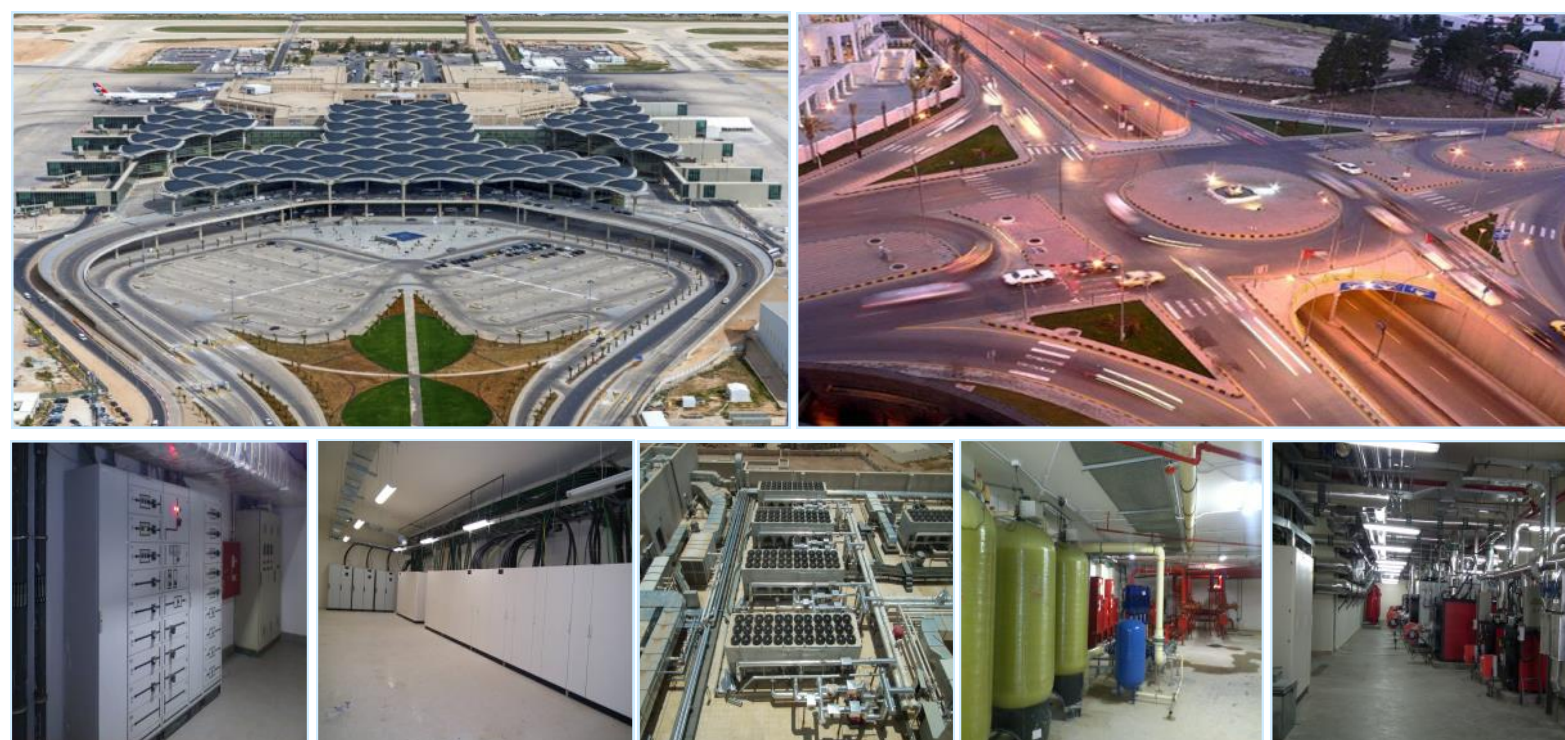

EXCELLENCE, by continually improving our operations and processes minimizing loss time and increasing efficiency.

OUR COMMITMENT

To our **CUSTOMERS** is to view them as partners.

To our **EMPLOYEES** is to reward, nurture, and grow their talents and innovative thinking.

To the **COMMUNITY** is to make the communities we work in a better place to live.

FIRST GRADE BUILDINGS

Equipped with a high level of technical know-how and expertise, the concrete division at

HADDADINCO enterprise performs monumental tasks with minute attention to perfection, all the while keeping an eye on HSE, quality, time and cost factors.

we pride ourselves in our ability to design, procure, construct and deliver a Total Building Solution on time, within budget and in accordance with our client's expectations every time .

We deliver building construction projects to multiple sectors including hotels, hospitals, Schools, industrial, and multi unit residential.

FIRST GRADE ELECTRO-MECHANICAL

HADDADINCO Enterprise has its own in-house electro-mechanical division which provides complete electro-mechanical services/ solutions .

We render electro-mechanical installations to various construction requirements such as HVAC, Electrical & Fire Alarm, Plumbing & Refrigeration, installations of electrical instruments & systems, medical equipments, heavy mechanical & electrical equipments and all aspects of Building Management Systems .

We are proud of our engineering capabilities to match the best of international standards of quality and reliability.

FIRST GRADE FURNISHING & DECORATIONS

Ensuring your project is taken to the next level, **HADDADINCO** offer a complete interior decoration and styling services.

HADDADINCO Enterprise provides exquisitely designed executed and professionally performed woodworks and steelworks. Whether it is custom designed furniture, parquet, flooring, decorative paneling, kitchen cabinets, doors and windows or shutters.

FIRST GRADE MAINTENANCE

HADDADINCO Enterprise is endowed with great capabilities of Maintenance works for all types of projects, including maintenance of all types of buildings, structural, mechanical, utility and electrical infrastructure.

Our wide array of maintenance services help your business look and function as intended.

We operates and maintains the building systems, interior spaces, building exteriors and all types of buildings infrastructure.

Reliability and dependability remain our most remarkable hallmarks.

FIRST GRADE - BRIDGES & CULVERTS FIRST GRADE - ROADS

HADDADINCO Enterprise has made a valuable contribution to expanding the infrastructure & transportation network of JORDAN.

HADDADINCO has become one of the leading heavy civil construction contractor in JORDAN with great capabilities to execute any type of high scale and huge infrastructure project.

HADDADINCO excels in the successful completion of highly technical projects in a variety of challenging environments, constructed distinguished landmark bridges & under passes projects in AMMAN & JORDAN.

We cover a wide spectrum of road construction projects ranging from earthworks culverts, concrete bridges, including pre-stressed concrete, asphaltting, street finishing, markings and utilities.

FIRST GRADE—STEEL STRUCTURE SECOND GRADE—WATER AND SEWAGE

Steel Structure Works, HADDADINCO is a leading provider of comprehensive steel structure solutions, delivering high-quality, durable, and innovative metal works for industrial and commercial projects, utilizing advanced technologies, skilled craftsmanship, and strict quality control, with safety, sustainability, and client satisfaction at the core of every project.

Water & Sewage Works, HADDADINCO Enterprise deliver total solutions for the toughest water and sewage challenges with constant focus on safety and sustainability, with unmatched experience and safety record that proves we care for our employees and clients.

At **HADDADINCO** we are known for excellence in a diverse range of markets. Our extensive experience in each and every realm is driven by the breadth and depth of our qualified teams, all who take pride in doing the best possible job for our clients.

HOTELS & CONVENTION CENTERS

The hospitality industry in Jordan has recently seen a substantial boom, with new hotels, resorts and convention centers announced everyday.

HADDADINCO, an award winning contractor, understood early on how hotels, resorts and convention centers would become a major driver in the economic development of the Kingdom.

When we work in places where people go to relax and enjoy themselves, we handle all aspects of the construction process so you are able to focus on your customers and your business.

The company played a vital role and continues to participate in this sector and has accumulated the necessary expertise to lead within this industry.

HADDADINCO worked on projects across Jordan and have been recognized as a leader in the hotel and hospitality construction industry. From grand resorts and luxurious accommodations to convention centers, HADDADINCO brings the knowledge and experience of a true builder to each project.

Our teams of seasoned professionals are flexible, creative and accommodating to the nature of the worksite and the needs of the owner.

HOSPITALS

From the right beginning, Jordan has aimed to be one of the leading countries in the healthcare sector in the region. There was urgent need for moderate to excellent healthcare projects to be implemented to serve all Jordan and the regional countries.

HADDADINCO has proven its capabilities in executing such Moderate and excellent size hospitals of 200 bed capacity and more, meeting project budget and time constraints.

These hospitals equipped with modern medical equipments offer excellent services for the patients, which also Haddadinco has tremendous knowledge in executing the major works accommodating these equipments requirements.

Hospital Works Executed include:

- Research and Laboratory Facilities
- High Standard Internal finishes .
- Advanced Electromechanical Systems
- Medical Equipments
- Cancer Treatment Facilities
- Installation of Operation Rooms Equipments and systems.
- Support Facilities such as Parking Garages and Heliports

ROAD, BRIDGES & UNDERPASSES

A successful transportation infrastructure capable of supporting business logistics in a country like Jordan is a detrimental factor in economic progress. Adequate interstate road networks act as arteries connecting and facilitating interaction and communication between the different local economies. Such developments facilitate the country's overall forward economic transition.

Now that fast-track development is a Jordanian reality, these intelligent road networks have become an imperative.

Haddadinco realized such significance early on and has acquired substantial expertise. The company executed solutions that addressed major traffic bottlenecks, congestions and road infrastructures in various challenging terrains.

HADDADINCO is especially equipped for constructing and managing road and bridge projects across Jordan, while accommodating through-traffic during construction phases. As well, the company's expertise makes it highly capable at assembling the necessary qualified human resources for delivering projects in record time; be it for highways, intersection, underpasses, bridges, culverts or the multitude of road and highway infrastructural developments.

HADDADINCO implements advanced construction solutions that are tested and proven, and owns an impeccable record as a fast-track developer.

Our team of 1,000 employees hails from every craft and expertise in the field, allowing us to combine innovative construction methods and accountable project management to get the job done and get it done right.

COMMERCIAL BUILDINGS

Architects love a good builder: a skilled construction company that interprets their vision into the reality envisaged at design stages.

Likewise, HADDADINCO loves innovative architects. The company has developed a special passion and skill for translating architectural designs into modern purpose-built structures.

A long established expertise through a multitude of projects makes HADDADINCO one of the most capable contractors for implementing complex and intricate design works in Jordan.

The company has reached a higher level of know-how and construction quality, one that is clearly manifested in its accomplishment of turnkey projects. An example of these would be the Ministry of Public Works and the award winning Al Hussein Convention Center. The company's backlog and work in progress include several hotels, hospitals, schools and more.

HADDADINCO is a vital partner in the development of custom-built structures that require deeper knowledge in the various construction systems that reward investors with higher returns on investment. Furthermore, the company's construction engineers, from electromechanical experts to project managers, bring functional values to a client's architectural vision throughout work progress - from the largest building detail to the smallest.

ELECTROMECHANICAL WORKS

The modern concept of intelligent buildings brings life to what once seemed a static structure. From smart lighting to sophisticated air conditioning, security, communication systems, and an array of electromechanical works, buildings today assume greater functions, becoming energy-efficient, functional for work or habitat and integrating with their environment.

HADDADINCO conceives of each of its electromechanical projects as a chance to breathe life into a structure. The expertise developed within the company's cadre has helped many clients better understand their needs in a project, further developing their abilities at finding extensive functional values in structures.

HADDADINCO retains highly qualified experts for installing and managing the deployment of these integral systems within their construction projects. The expertise at hand in the company is built on hands-on knowledge, acquire from executing multiple electromechanical projects of different complexities, sizes and requirements.

We are proud of our engineering capabilities to match the best of international standards of quality and reliability.

REFURBISHMENT

Value is in the eye of the beholder. This is another HADDADINCO motto, one that is practiced thoroughly and throughout all phases of execution.

The company sees refurbishment as construction art and science, requiring a special eye for detail and a special talent at depicting functionality and values beyond the obvious.

The company's approach to refurbishment starts from helping clients find and conceptualize their vision for an existing structure, and continues into a complete structural transformation that can generate a value of its own.

The company's commitment to success in this area and its rejection of mediocre solutions was highly evident in its refurbishment works on the Royal Cultural Center in Amman. The fast-track project was accomplished in a record 40-day span to prep up the structure for the Arab Summit 2000. To accomplish the same feat with a normal work rhythm would have required about a 4-month delivery schedule.

The refurbishment works on Jordan Kuwait Bank's headquarters is one of the more architecturally prominent structures that Haddadinco has recently done. This renovation work produced one of Jordan's most aesthetically appealing structures; the bank daily operation was not interrupted while work was in progress.

Refurbishment has helped several clients turn their depreciating assets around, extending also their return on investment.

We build based on a client-focused approach to exceed our clients' expectations with exceptional safety practices and high quality construction delivering accurate scopes, budgets and schedules.

MANUFACTURING & INDUSTRIAL

For over Four decades of experience, we have earned recognition for transforming the ideas and visions of our clients into reality by building and maintaining their operational and processing facilities.

We build based on a client-focused approach to exceed our clients' expectations with exceptional safety practices and high quality construction delivering accurate scopes, budgets and schedules.

we understand that project delays mean lost revenue for our clients. We expertly manage the unique requirements associated with highly sophisticated systems and processes during construction so clients can focus on operational aspects of their new or upgraded facility.

EDUCATION & ACADEMIES

You expect innovation and superior performance from your students and staff we believe you deserve the same excellence from your school & academy construction company.

The difference shows not only in the quality of the buildings we leave behind, but also in the relationships we build along the way.

HADDADINCO understand that as new technologies and teaching methods continue to develop and evolve over time, the needs and demands of educational facilities also change.

WHAT'S OUR CLIENTS THINK ABOUT US
